

Root Qdisc

```
graph TD; Root[Root Qdisc] --> C1[class 1]; Root --> C2[class 2]; C1 --> Q1[QDisc]; C2 --> Q2[QDisc]
```

The diagram illustrates a hierarchical structure for a Root Qdisc. At the top level, there is a box labeled "Root Qdisc". Inside this box, there are two sub-boxes labeled "class 1" and "class 2". Each of these class boxes contains a smaller box labeled "QDisc".

class 1

QDisc

class 2

QDisc
